Preferred Way of Getting Referrals:	Phone Call or Email

### Why you joined IPPI:

I joined IPPI to help to increase awareness of independent practices in the area. I think that patients prefer a more individualized approach, but are often not aware that there are other choices outside of the "Big Box" Systems which are marketed much more aggressively.

### What you want your peers to know about your practice:

I opened the practice in 1996 with a focus on treating patients the same way I would treat my own family members. I continue to provide a level of attention to my patients that is rarely found in today's healthcare system.

### What type of doctors/providers you'd like to refer to:

I prefer referring to doctors that have a similar approach to caring for patients as I do.

**What type of doctors/providers you seek referrals from:** Anyone who appreciates sending their patients to a place where they will be treated in an honest, respectful, manner.
