Preferred Way of Getting Referrals:	Email, Call or Fax (888-725-4363)

Why you joined IPPI:

I joined IPPI to make connections with physicians and providers who were in private practice to grow my referral network as well as to increase the referrals coming to my practice given how niche genetics is in the healthcare space.

What you want your peers to know about your practice:

I provide telehealth genetics services for adults who may have a genetic disorder, who have a strong family history of a disorder (e.g., cancer, cardiac disease, neurological disorder), who need genetic testing, or couples who are in the family planning stage of life. I can also help interpret genetic test results for patients who have ordered their own genetic testing online.

What type of doctors/providers you'd like to refer to:

Providers who are interested in managing patients who may be at high risk for a condition and need routine screening and/or close monitoring.

What type of doctors/providers you seek referrals from:

Cardiologists, Gastroenterologists, Neurologists, OB/GYNs, Oncology/Surgical Oncology, Primary Care/Internal Med, Psychiatrists (for pharmacogenetic testing)
